Project Name	Fertilizer Recommendation System for Disease Prediction
Maximum Marks	2 Marks

I am Suresh. I have my own land and do agriculture for my survival. I am cultivating my own land with different fruits and vegetables from past 25 years. From all these years the major problem I faced was in difficulty in Choosing Fertilizers and Controlling of Plant Disease.

- I choose to recognize the better suggestions for fertilizers and plant life with diseases.
- I am going through large losses from long time.
- I want to comprehend the end results right away.

<b>I am</b>	Describe customer with 3-4 key characteristics - <i>who are they?</i>	Describe the customer and their attributes here
<b>I'm trying to</b>	List their outcome or "job" the care about - <i>what are they trying to achieve?</i>	List the thing they are trying to achieve here
<b>but</b>	Describe what problems or barriers stand in the way – <i>what bothers them most?</i>	Describe the problems or barriers that get in the way here
<b>because</b>	Enter the "root cause" of why the problem or barrier exists – <i>what needs to be solved?</i>	Describe the reason the problems or barriers exist
<b>which makes me feel</b>	Describe the emotions from the customer's point of view – <i>how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

### Example:

I am	I'm trying to	But	Because	Which makes me feel
a farmer	find the correct fertilizers	I am unable to find so	I am not aware about all the fertilizers available	disappointed
				miro

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	a Farmer	find the correct fertilizers	I am unable to find so	I am not aware about all the fertilizers available	Disappointed.
PS-2	a Farmer	control the plant diseases caused by the abnormal biological performance.	I am unable to control	I don't know how to identify different diseases on plants by checking the symptoms.	Miserable.
